

Schedule 2024 (7.0) August 2025 Service Pack 2

Release Version: Schedule 2024.0.90

Release Date: August 2025

This release includes Schedule 2024 fixes.

Fixes

Case #	Description
SCHED-2458	A service call can no longer be reopened in Schedule.
SCHED-2484	The XOι integration with Schedule has been updated to allow the Job Location field to reference and display the Location Name (LOCATNNM) from the SV00200 or SV00300 SQL tables, along with associated address details. This update aims to improve clarity when multiple service sites are associated with the same customer.
SCHED-2490	The Contact Person 1 and Phone 1 information are now displayed in the service call tool tip on the Schedule Board.
