eTimeTrack Web Service

If you are using Signature 18.04b06 or higher, you will need to install/upgrade to eTimeTrack Web Service 2018 R6 (18.04b06).

Transfer Layer Security (TLS)

Client Protocol

- TLS 1.2

Best Practices

For optimal synchronization performance, it is recommended to not run any unnecessary background processes during the scheduled sync time that could impact available system resources.

If you customize the column label for the "Activity" column, you will also need to update the Project Hierarchical Entry field (Settings > System Settings > Entry Sheets (Global Settings)) and the Time Entry Grid label (Settings > System Settings > Custom Entry Screens > Time Entry Screens > Standard Time Entry Grid) with the exact custom name.

Features and Fixes

For Android Users, the default Home Screen is set to Activity. An indicator displays while the Activity Home Screen is loading data.
