# Watchdog Reports

## Filtering by checkbox.

Uncheck the Use All devices box and a tree will open where you may select a single Agent, Device, Campus, Site or Area.

In this example the Amli-Loft agent is selected.

Click *OK*.

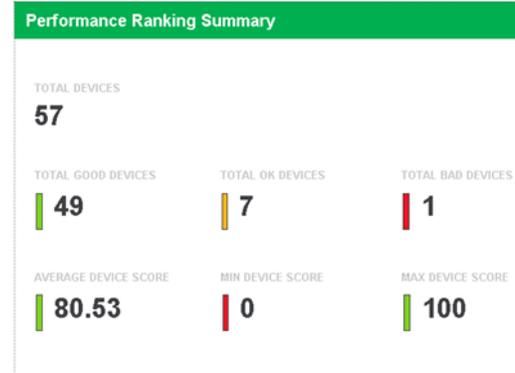

*Attention; When using filters, be sure to verify that there are no additional boxes checked at lower levels.*

# Watchdog Reports

## A single Agent Watchdog Report.

The Watchdog report will include a Performance Ranking summary for Aml\_i\_Loft devices containing watchdogs with scores.

## Tag Filtering

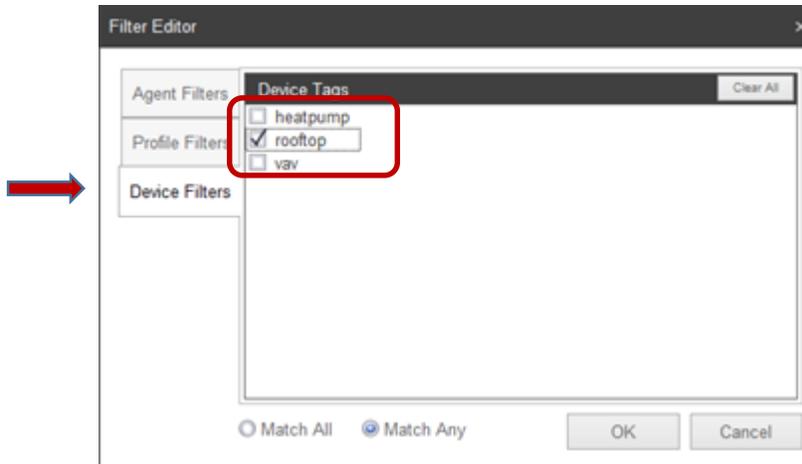

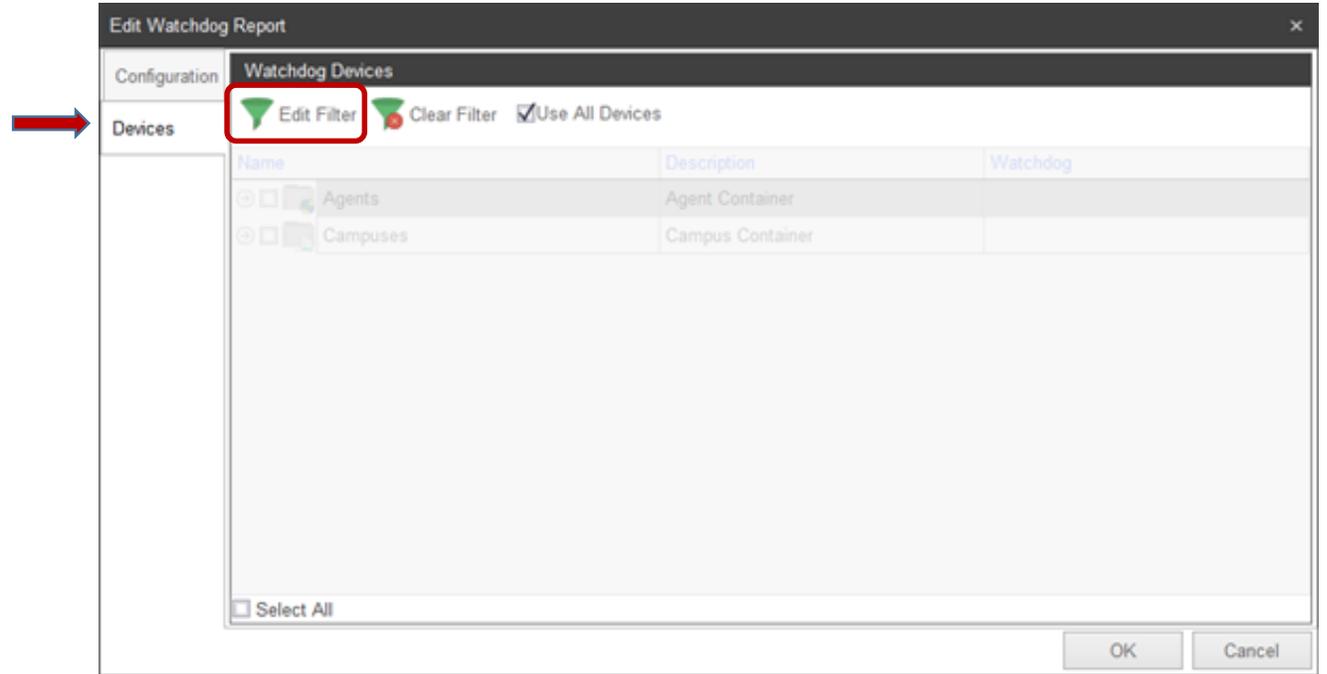

Selecting the Edit Filter tool link will open the Filter Editor window.

Filters are provided for Agents, Profiles and devices. The filter uses tags.

Tags are applied to an Agent, profile or device in the Configuration Explorer on the Properties page, Tag tab page.

In this example the Device Filter and Device Tag *rooftop* is selected.

Click *OK*.

# Watchdog Reports

## Tag Filtering

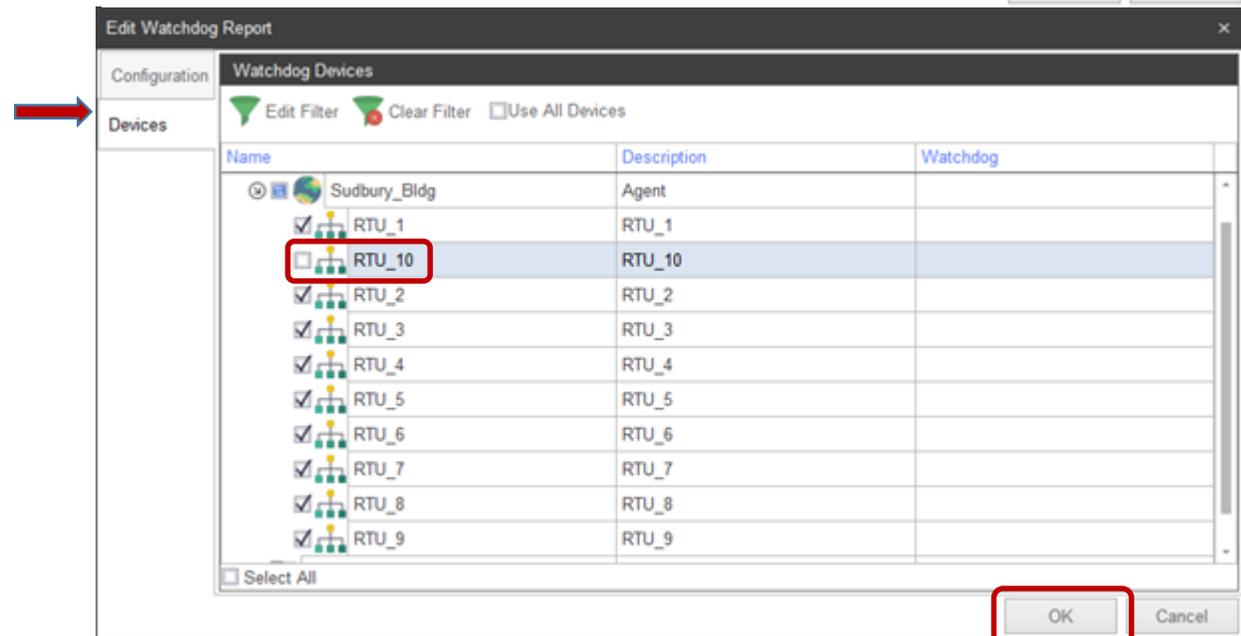

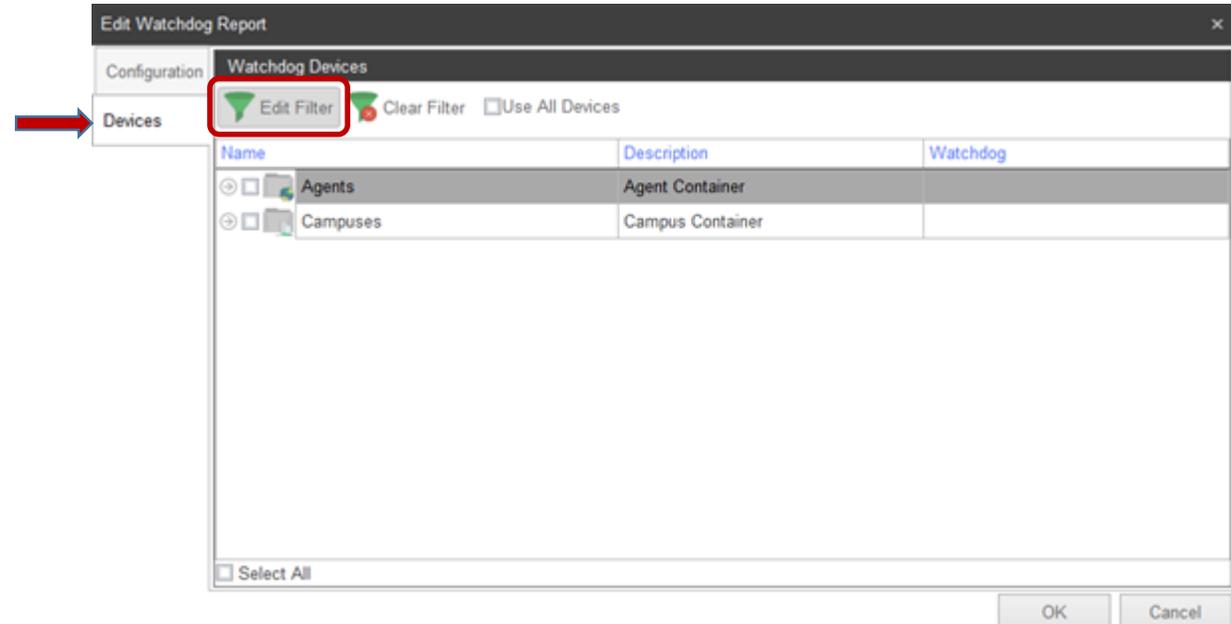

Wait for the Edit Filter button gray background to clear.

Then the list of Devices presented for selection will be limited to the devices containing the rooftop tag.

The only agent in this database that contains devices with a rooftop device tag applied is the Sudbury agent. The other agents have been filtered out.

Select the devices that are desired to be included in the Watchdog report. Notice that RTU\_10 was not selected.

Click *OK*.
